Year 6

Magpies

Mrs Rebecca Rogers

Dear Parents/Caregivers,

Welcome back for the 2022 school year. My name is Rebecca Rogers and I am optimistic we will have a fun and successful year with our class of Year 6 Magpies!

We have 26 students in our class who will work collaboratively to achieve goals. We are supported within our classroom by Mrs Tanya Moore as our SLSO (Student Learning Support Officer). Mrs Gabriel Easman will be taking the class each Wednesday relieving me for other duties around the school.

Mrs Amanda Bunter will take the class for Science every Thursday for one hour. Our Library day is Tuesday with Ms Renee Cohen. Scripture lessons are currently timetabled for Wednesday. Sport sessions will be held on Friday afternoons along with morning PE sessions each day.

Students will receive weekly homework to complete independently. This will begin Week 3. Students will receive homework on Mondays and it is expected to be submitted on Fridays. All students are encouraged to read on a regular basis.

I am pleased to work with parents and carers to assist all students on their learning journey. Please feel free to arrange a time to discuss any concerns or requests you may have.

Thankyou,

Rebecca Rogers
Classroom Teacher

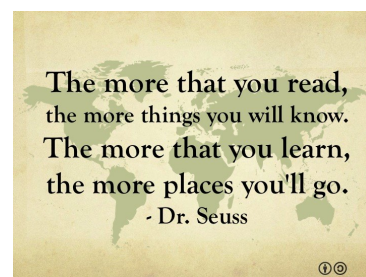

Additional Information:

- ◆ Throughout the year you will receive forms and information for High School, this starts early so please be prepared. There is a process in moving on to High School with first a form of expression of enrolment followed later in the year with actual enrolment forms. Please return these promptly once received as it can make transition run with ease.
- ◆ Graduation will occur at the end of the year and we will ask for baby photos for this special time.
- ◆ An excursion has been planned for Term 4 and at this point we are hopeful all will work out, please cross your fingers. This excursion is a 3 night excursion. Notes will be sent out with payment plans when the covid situation is under control. This excursion is a great opportunity for your child to strengthen their independence and resilience skills while forming greater bonds with peers.

Learning Opportunities:

- ◆ Our class have a Google Classroom that can be accessed through their student portal. Students are aware of the steps to access this site and can do so on any device that has access to internet search engines such as google or safari. This online platform will have tasks students are able to complete and receive feedback for improvement.
- ◆ Encouraging reading is extremely important, we would appreciate your support with this.
- ◆ We are here to help your child to thrive so please stay in contact, we will work together as a strong team.

Magpies are symbolic of **INTELLIGENCE** and **wit**.

These black and white birds show an extraordinarily **high IQ** and are equally

resourceful as well. These birds also have a **powerful spirit**

and totem that can guide you to the easiest path to **SUCCESS**.
