

Empowering the world to design

Dear / Parents / Caregivers,

I am writing to inform you that your child at Gilgandra Public School will shortly have the opportunity to access Canva for Education.

[Canva for Education](#) is a free design product that gives teachers and their students access to additional features in Canva that are normally restricted to professional users. It will allow teachers to build visual literacy in students by setting tasks to create presentations, posters, reports and more from their computer easily and simply using an industry standard tool.

Your child/ren cannot get access to this service unless invited by their teacher.

Canva for Education will not:

1. Track location data
2. Serve your child/ren any ads, or send them any marketing campaigns
3. Ask your child/ren to pay for anything or put in a credit card
4. Share information (limited to student's name, email and password) with anyone, except for essential services used to keep Canva running (outlined in our [privacy policy](#))

However in order to facilitate the service:

1. Canva will ask for a name, (school) email address and a password.
2. If your child/ren is not active on Canva for a year, Canva will email them to check if the account is still required, if no response is received the data and account will be deleted

You can access Canva's comprehensive [Privacy Policy](#) for further information.

The entire school community looks forward to engaging your child/ren with this industry standard tool, if you have any questions or concerns about the use of this tool please don't hesitate to contact us on 68472043.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read "Amber Benson".

Amber Benson  
Class Teacher
